## The Benefits of Arts PD for Teachers

Studies find that when teachers use arts integration they experiment with their curriculum and pedagogical approaches resulting in increased engagement in their teaching, adding new depth to their teaching practice that echoes the deep learning the arts provide students. In one study, teachers on the verge of burnout found that arts integration revitalized their passion for teaching and recharged them personally and professionally ([Bellisario & Donovan, 2012](#)). Another study found that when the arts were infused in the whole school, increased engagement led to decreased absenteeism among teachers ([Barry, 2010](#)).
